

Modbus Protocol Tester

v0.3.5.0

Copyright: This Software is owned by Colway Solutions and protected by national copyright laws and international copyright treaties. Modbus Protocol Tester is a shareware application which may be distributed to any person for test without charge.

The trial period is limited to 30 days from the date of activation.

Warning: Please do not uninstall and re-install the trial version of Modbus Protocol Tester on the same machine. By doing this our protection algorithm detects as a suspect installation and this will further block you from using a Modbus Protocol Tester.

For any questions or support request; contact Colway Solutions on the following email ID: support@colwaysolutions.com

To buy Full Version license for Modbus Protocol Tester contact Colway Solutions on the following email ID: enquiries@colwaysolutions.com

Trial Activation Guide

You can activate Modbus Protocol Tester either in two ways.

1. Normal internet activation.
2. Manual activation (without internet).

We highly recommended you to opt for internet activation. As this will be very easy to activate "MPT" and hassle free comparatively to manual activation.

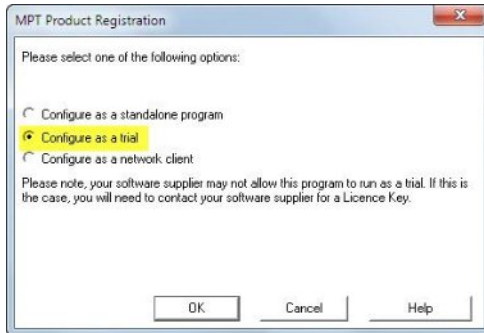

We suggest you provide limited internet access to your machine for trial activation. However, there will be situations where this is not possible during such instances you can opt for "Manual activation".

Steps for Internet activation (Highly recommended)

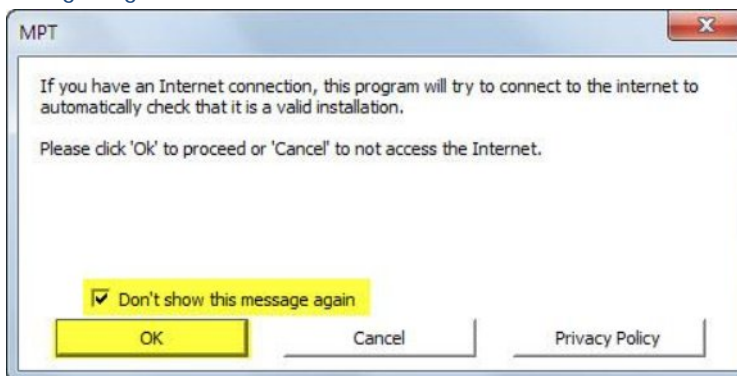

Make sure your machine has a limited internet access for activating MPT trial license automatically through internet.

1. Install Modbus Protocol Tester (SetupMPT.exe)
2. Launch ModbusProtocolTester.exe
3. You will be prompted with the product registration window, choose "Configure as a trial" -> click on "OK" button to continue.

MPT Trial Activation Guide

4. Now you will be prompted with a dialog message window to get internet access for auto configuring the trial license as show below.

Click on "OK" button to allow internet access.

5. You will be presented with a registration window. Enter the required registration details.

Company name:

Contact name:

Country:

Telephone number: (optional)

Email address: Please make sure you enter a valid email address. As your email address needs to be verified prior to use "MPT"

The screenshot shows the 'Product Registration' form. It contains the following fields and text:

- Header: 'Product Registration' with a help icon and close button.
- Instructions: 'To complete the registration of this product, please fill out the form below. Items marked with a * are compulsory. Only information regarding the registration of this product will be sent over the Internet. This information will be securely stored by Microcosm and will not be distributed to anybody other than the Software Developer and Microcosm. If you would like to see Microcosm's security policy then please click the button below'.
- Fields:
 - Company Name * (filled with 'Colway Solutions')

MPT Trial Activation Guide

- Click on "OK" button and you will receive an email containing a verification link. The user must follow this link, or visit the URL in a web browser to confirm that you received the email.

Note: If you do not receive the email, please ensure you white list verification@copyminder.com and/or check your spam folder before running this program again for options.

- After successful verification of email address, re-launch ModbusProtocolTester.exe
- Now again you will be prompted for internet connection.

Note: You won't see below window if "Don't show this message again" ticked already in the first showcase of this window.

Click on "OK" button to get internet access.

- Now Modbus protocol Tester will be launched.
- As a final step of activation the below dialog message will appear after MPT gets launched.

Note: You won't see below window if "Don't show this message again" ticked already in the first showcase of this window.

Click on "OK" button to allow internet access.

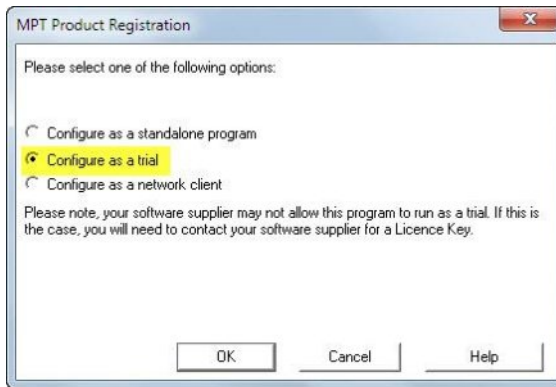

- Now your trial license will be activated automatically and you're set to run Modbus Protocol Tester.

Steps for Manual activation

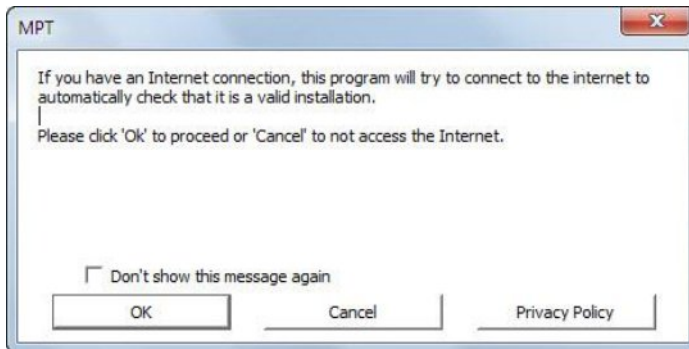

Choose for manual activation only if your machine does not have an internet access completely.

- Install Modbus Protocol Tester (SetupMPT.exe)
- Launch ModbusProtocolTester.exe
- You will be prompted with product registration window, choose "Configure as a trial" -> click on "OK" button to continue.

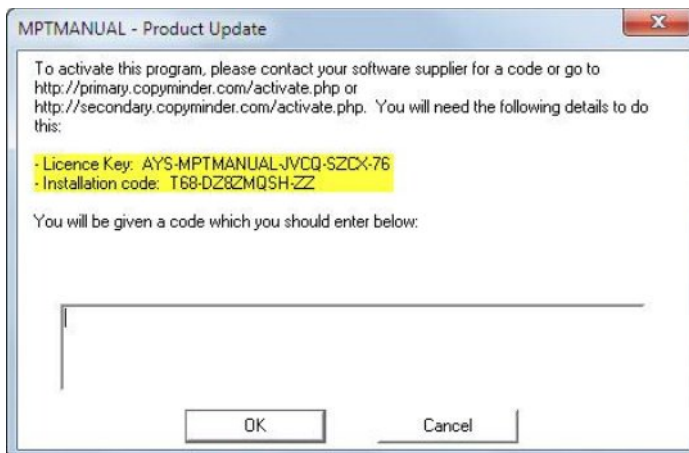

MPT Trial Activation Guide

4. Now you will be prompted with a dialog message to get internet access as show below.

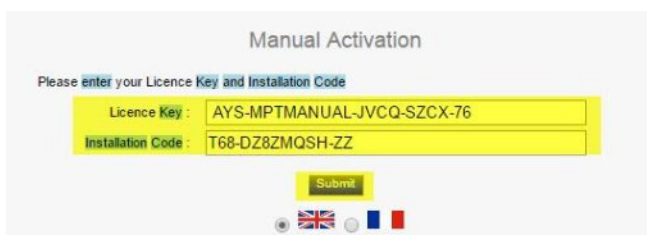

Click on "OK" button and it will try to connect to internet, on failure you will be prompted with the below window.

Copy License key and Installation code to the txt file and copy the text file to any storage device, as it is required to get activation code.

5. Go to <http://primary.copyminder.com/activate.php> or <http://secondary.copyminder.com/activate.php> from a machine which has an internet connection.
6. On web portal, enter the received License key and Installation code and click on submit button.

MPT Trial Activation Guide
